United Nations

A/RES/70/1

General Assembly

Dist.: General
21 October 2015Seventieth session
Agenda items: 15 and 116

Resolution adopted by the General Assembly on 25 September 2015

[without reference to a Main Committee (A/70/L.1)]

70/1. Transforming our world: the 2030 Agenda for Sustainable Development

The General Assembly

Adopts the following outcome document of the United Nations summit for the adoption of the post-2015 development agenda:

Transforming our world: the 2030 Agenda for Sustainable Development**Preamble**

This Agenda is a plan of action for people, planet and prosperity. It also seeks to strengthen universal peace in larger freedom. We recognize that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development.

All countries and all stakeholders, acting in collaborative partnership, will implement this plan. We are resolved to free the human race from the tyranny of poverty and want and to heal and secure our planet. We are determined to take the bold and transformative steps which are urgently needed to shift the world on to a sustainable and resilient path. As we embark on this collective journey, we pledge that no one will be left behind.

The 17 Sustainable Development Goals and 169 targets which we are announcing today demonstrate the scale and ambition of this new universal Agenda. They seek to build on the Millennium Development Goals and complete what they did not achieve. They seek to realize the human rights of all and to achieve gender equality and the empowerment of all women and girls. They are integrated and indivisible and balance the three dimensions of sustainable development: the economic, social and environmental.

The Goals and targets will stimulate action over the next 15 years in areas of critical importance for humanity and the planet.

SUSTAINABLE DEVELOPMENT TRACK

Focus on environmental sustainability

Background: Earth Summit, 1992

(Credit: UN)

The first global gathering on sustainability was the 1992 Earth Summit in Rio de Janeiro, Brazil.

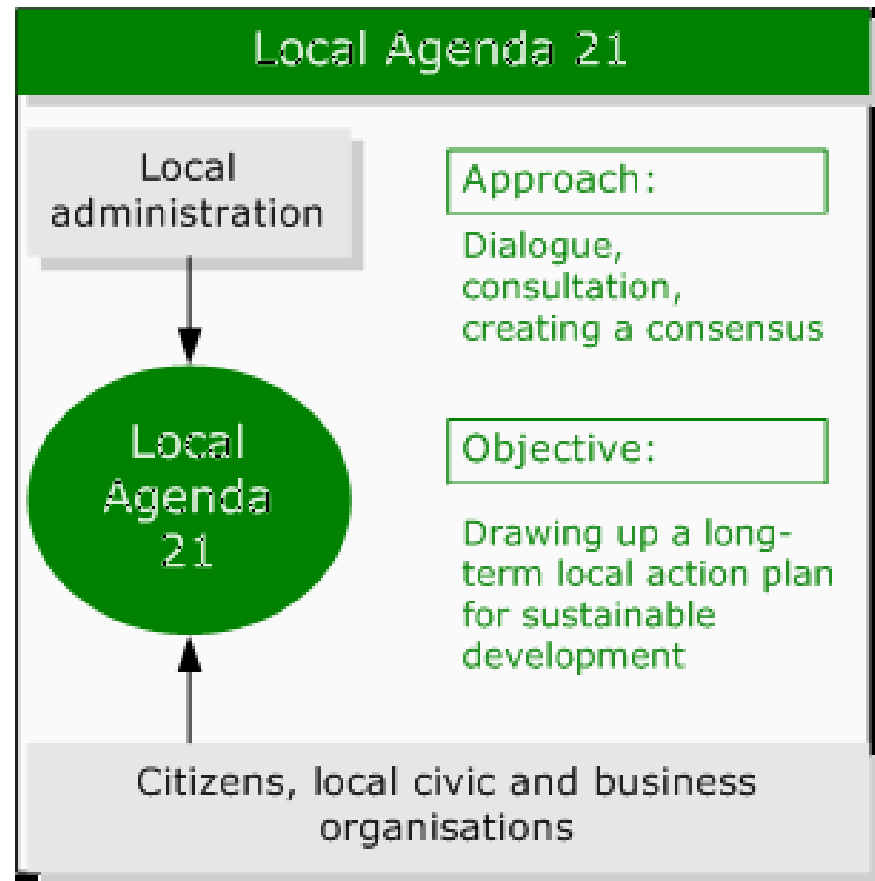

"If you don't know how to fix it, please don't break it." – 12-yr old Canadian [Severn Cullis-Suzuki](#) at Earth Summit 1992

The Earth Summit – the United Nations Conference on Environment and Development (UNCED) June 3-14 – produced ***Agenda 21, a blueprint to rethink economic growth, to advance social equity and to ensure environmental protection.***

More than 178 Governments adopted: [Agenda 21](#), the [Rio Declaration on Environment and Development](#), and the [Statement of Principles for the Sustainable Management of Forests](#).

Two important legally binding agreements were opened for signatures: the [United Nations Framework Convention on Climate Change](#) (UNFCCC), to reduce greenhouse gas emissions; and, the [Convention on Biological Diversity](#), to conserve biodiversity. The [Commission on Sustainable Development](#) (CSD) was created to ensure effective follow-up to the Summit.

The 2030 Agenda for Sustainable Development

By endorsing the 2030 Agenda for Sustainable Development and its 17 Sustainable Development Goals (SDGs) in 2015, the world community reaffirmed its commitment to Sustainable Development. Through this Agenda, 193 member states pledged to ensure sustained and inclusive economic growth, social inclusion, and environmental protection, fostering peaceful, just, and inclusive societies through a new global partnership.

The 2030 Agenda is universal, transformative, and rights-based. It is an ambitious plan of action for countries, the UN system, and all other actors. The Agenda is the most comprehensive blueprint to date for eliminating extreme poverty, reducing inequality, and protecting the planet. The Agenda goes beyond rhetoric and lays down a concrete call to action for people, planet, and prosperity. It encourages us to take bold and transformative steps which are urgently needed to shift the world onto a sustainable and resilient path.

How did we get here?

Gaining momentum since the 1972 UN Conference on Human Environment all the way to the 2015 UN Sustainable Development Summit, the 2030 Agenda is a culmination of more than four decades of multilateral dialogue and debate on tackling environmental, social, and economic challenges faced by the world community. Adopted as a result of extensive negotiations among member states, the accountability for the implementation of the Agenda primarily rests with national governments.

Core Principles Underpinning the Agenda

The 2030 Agenda embodies the following core principles:

○ **Universality**

The 2030 Agenda is universal in scope and commits all countries, irrespective of their income levels and development status, to contribute towards a comprehensive effort towards sustainable development. The Agenda is applicable in all countries, in all contexts, and at all times.

○ **Leaving no one behind**

The 2030 Agenda seeks to benefit all people and commits to leave no one behind by reaching out to all people in need and deprivation, wherever they are, in a manner which targets their specific challenges and vulnerabilities. This generates an unprecedented demand for local and disaggregated data to analyse outcomes and track progress.

○ **Interconnectedness and indivisibility**

The 2030 Agenda rests on the interconnected and indivisible nature of its 17 SDGs. It is crucial that all entities responsible for the implementation of SDGs treat them in their entirety instead of approaching them as a menu list of individual goals from which they pick and choose.

○ **Inclusiveness**

The 2030 Agenda calls for the participation of all segments of society—irrespective of their race, gender, ethnicity, and identity—to contribute to its implementation.

○ **Multi-Stakeholder Partnerships**

The 2030 Agenda calls for establishing multi-stakeholder partnerships for mobilising and sharing knowledge, expertise, technology and financial resources, to support the achievement of SDGs in all countries.

Dimensions of the New Agenda

At the heart of the 2030 Agenda are five critical dimensions: **people, prosperity, planet, partnership and peace**, also known as the 5P's. Traditionally viewed through the lens of three core elements—**social inclusion, economic growth, and environmental protection**—the concept of sustainable development has taken on a richer meaning with the adoption of the 2030 Agenda, which builds upon this traditional approach by adding two critical components: **partnership and peace**. Genuine sustainability sits at the core of these five dimensions.

The five dimensions inform development policy decisions. This means that for a development intervention to be sustainable, it must take into account the social, economic, and environmental consequences it generates, and lead to conscious choices in terms of the trade-offs, synergies, and spin offs it creates. Additionally, policy makers need to ensure that any intervention is developed, owned, and carried forward with the relevant partnerships and leverages the appropriate means of implementation.

In this way, the 2030 Agenda and the SDGs together represent a holistic approach to understanding and tackling problems, by guiding us to ask the right questions at the right time.

The Sustainable Development Goals

Contrary to what many believe, the SDGs do not represent the Agenda in its entirety. They are not a summary of the Agenda, but rather focus areas necessary to achieve sustainable development. The 17 goals should be seen as indispensable pieces in a big and complex puzzle. In order to truly understand the Agenda, one needs to look at the puzzle as a whole, but at the same time, it is impossible to complete the puzzle without those pieces. SDGs are the pressure points that have the capability to affect the wellbeing of the entire planet and the people who live on it. Because the SDGs are the result of extensive political negotiations and individual consultations, they are not perfect, but inarguably represent some of the most urgent and universal needs of the world today. The

SDGs help translate the core values and principles underlying the Agenda into concrete and measurable results

Not all goals have the same standing. While some goals appear more overarching or 'final' in nature, others can be seen as 'means' to those final goals. For example, we do not only pursue the water and energy goals (SDGs 6 and 7) for their own sake, but because clean water and energy are means to the true goal of health and wellbeing.¹ However, clean energy and water are such crucial issues that they demand specific focus. Looking at some SDGs as means to others can help us appreciate the interlinkages of the SDGs.

Conclusion

The 2030 Agenda inspires us to think creatively by leveraging innovative approaches and critically rethinking the way we approach the development challenges of today. Advocacy and awareness raising efforts for the goals, which are actionable and achievable, are crucial to mobilise support for the Agenda. However, in order to create long-lasting change, awareness raising and advocacy are not enough.

Substantive knowledge about the Agenda in its breadth and depth will be key to realising the Sustainable Development Goals. By adopting the Agenda, the UN member states committed to an ambitious plan of action which requires the concerted efforts of all segments of society including civil society, development practitioners, the private sector, and academia. Each one of us, in our personal capacities, also needs to take concrete steps towards sustainable life choices. A commitment to life-long learning is required to advance the transformational agenda that lies ahead of us.

About the organisation

Didier Reynders and Alexander De Croo welcome the appointment of HM Queen Mathilde as advocate of the Sustainable Development Goals

20 January 2016

Deputy Prime Minister and Minister of Foreign Affairs Didier Reynders and Deputy Prime Minister and Minister of Development Cooperation Alexander De Croo welcome the appointment of HM Queen Mathilde as advocate of the Sustainable Development Goals (SDGs).

HM the Queen is now part of a group of about 15 eminent personalities appointed by the Secretary General of the United Nations Ban Ki-moon. They will help the United Nations in mobilizing the international community for the achievement of the SDGs by 2030. This is an important recognition of the international role of HM the Queen and of our country in the fight against poverty, injustice and the consequences of climate change.

3.4. Duurzaam wonen en bouwen.....	12
3.5. Duurzame voeding.....	13
3.6. Instrumenten voor duurzame ontwikkeling.....	14

Tegen die achtergrond mandateerde het Overlegcomité op 22 februari 2016 de in 2013 opgerichte Interministeriële Conferentie Duurzame Ontwikkeling (IMCDO) om bij te dragen tot de uitvoering van de 2030 ADO in België. Eén van haar eerste opdrachten was logischerwijze de uitwerking van een Nationale Strategie voor Duurzame Ontwikkeling (NSDO). We willen daarmee de samenwerking versterken tussen de verschillende beleidsniveaus, in het bijzonder met het oog op de realisatie van de duurzameontwikkelingsdoelstellingen. Blijvende resultaten zijn hier immers enkel mogelijk wanneer we onze respectieve bevoegdheden overstijgen en de zaken op een allesomvattende manier benaderen. Tezelfdertijd kunnen we zo de kruisverbanden tussen de verschillende sectoren en doelen beter benutten. We verzekeren hiermee eveneens een bredere opname van de aangegane verbintenissen en van de acties die we voeren voor duurzame ontwikkeling op de verschillende bestuursniveaus, gaande van het lokale tot het internationale niveau, langs het gewestelijke, het gemeenschapsniveau, en het federale niveau.

Deze nationale strategie heeft als doel een basis te scheppen voor een coherente aanpak van de beleidslijnen voor duurzame ontwikkeling in België. Deze strategie bestaat uit een overkoepelende kadertekst en de strategische documenten van de verschillende entiteiten.

De strategische documenten zijn*:

- Federaal: Federale Strategie (wet 05/05/1997): Langetermijnvisie, Federaal Plan Duurzame Ontwikkeling
- Vlaanderen: "Visie2050 – Een langetermijnstrategie voor Vlaanderen"
- Wallonië: 2^e Strategie Duurzame Ontwikkeling
- Brussels Hoofdstedelijk Gewest: Gewestelijk Plan voor Duurzame Ontwikkeling
- Duitstalige Gemeenschap: 2^e Concept van Regionale Ontwikkeling

De kadertekst bestaat uit:

- a) een gezamenlijke visie die de gewenste toekomstige situatie voor België beschrijft (deel 2);*
- b) een selectie van prioritaire thema's waarvoor de overheden samen concrete acties zullen uitvoeren (deel 3).*

De gezamenlijke visie (punt a) heeft een gemeenschappelijke basis met gedeelde elementen uit de afzonderlijk vastgelegde langetermijnvisies inzake duurzame ontwikkeling van de verschillende Belgische overheden. Ze hangen nauw samen met de 17 duurzameontwikkelingsdoelstellingen, zoals aangegeven bij elke paragraaf.

De thema's die gepaard gaan met concrete acties (punt b) worden beschreven in deel 3 van dit document.

European Commission - Press release

Sustainable Development: EU sets out its priorities

Strasbourg, 22 November 2016

Today, the European Commission is setting out a strategic approach for achieving sustainable development in Europe and around the world.

A first **Communication on the next steps for a sustainable European future** explains how the Commission's 10 political priorities contribute to implementing the UN 2030 Agenda for Sustainable Development and how the EU will meet the Sustainable Development Goals (SDGs) in the future. A second Communication on a new **European Consensus on Development** proposes a shared vision and framework for development cooperation for the EU and its Member States, aligned with the 2030 Agenda. A third Communication on **a renewed partnership with African, Caribbean and Pacific (ACP) countries** proposes building blocks for a new, sustainable phase in EU-ACP relations after the Cotonou Partnership Agreement expires in 2020.

First Vice-President **Frans Timmermans** said: *"To build a future for our children and our planet to the benefit of everyone we are making the SDGs and sustainability a guiding principle in all our work. Implementing the UN 2030 Agenda is a shared commitment and needs everyone's contribution and cooperation, including Member States and civil society at large."*

High Representative/Vice President **Federica Mogherini** said: *"In our times we are more interconnected than ever before, so investing in people beyond our borders is also an investment for Europe. Today's proposals have the common aim of strengthening the impact of our cooperation with our partners across the world, whilst promoting sustainability at home and abroad. This is at the heart of the EU's Global Strategy published in June. The EU will keep leading an external action that supports peace, democracy and good governance, that reinforces resilience at all levels and promotes shared and sustainable prosperity for all."*

Strasbourg, 22.11.2016

Vlaamse overheid

Visie 2050. Een langetermijnstrategie voor Vlaanderen

In haar Visie 2050 toont de Vlaamse Regering het Vlaanderen dat ze wenst op lange termijn: een sterk, sociaal, open, veerkrachtig en internationaal Vlaanderen dat welvaart en welzijn creëert op een slimme, innovatieve en duurzame manier en waarin iedereen meetelt. Het langetermijnbeleid biedt een antwoord op nieuwe kansen en uitdagingen en brengt de transities die de samenleving nodig heeft, in een versnelling. De eerste conceptnota van Visie 2050 werd in september 2015 goedgekeurd. Na overleg met stakeholders en adviesraden zijn er enkele thema's toegevoegd: sociaal beleid, arbeidsmarkt en participatie van personen van buitenlandse origine.

CCI FLANDERS CHARTER SUSTAINABLE ENTREPRENEURSHIP

Together for
a sustainable
future

Sustainable Development is no longer the playground of idealists. It encompasses dealing with scarce resources, sustainable energy, investing in human capital, meeting the needs of tomorrow ... **Sustainable development means sustainable profit in many ways.**

CCI Flanders wants to help businesses to embed sustainability into their DNA. By participating in the CCI Flanders Charter Sustainable Entrepreneurship, which will be rolled out throughout the whole of Flanders from January 2017 onwards, you can work on various sustainable topics tailored to the needs of your company.

Participating in this Charter also means developing the international reputation of your company, as you carry out different actions within the seventeen UN Sustainable Development Goals (SDGs). CCI Flanders is collaborating with Cifal Flanders / Unitar, an international training centre which focuses on sustainable management and which may offer the companies the internationally recognized UNITAR certificate.

So why not work towards sustainable development, sustainable profit and international recognition?
More information or an informal meeting?
vcdo@voka.be www.voka.be/vcdo

WHY PARTICIPATE?

- ✓ Lead the way in an increasing international trend
- ✓ Work on sustainable profit
- ✓ Save costs
- ✓ Boost your reputation: with employees, customers and partners
- ✓ Strengthen your international image
- ✓ Receive expert advice tailored to your business
- ✓ Sign up to an inspiration programme of continuous improvement
- ✓ Work in line with social, welfare and environmental legislation
- ✓ Receive an annual evaluation

CCI FLANDERS CHARTER SUSTAINABLE ENTREPRENEURSHIP

Together for
a sustainable
future

HOW DOES THE PROGRAMME WORK?

Over a one-year period, you will undertake a number of activities linked to the UN's seventeen sustainable development goals. You will be able to make use of advice and tips from our experts. At the end of the year, you will be able to highlight your improvements to a team of independent experts. If you pass the evaluation, you will receive the CCI Flanders Charter Sustainable Entrepreneurship.

Companies that carry out actions for three consecutive years within each of the seventeen UN sustainability goals will receive the internationally recognised UNITAR certificate, linked to the UN from Cifal Flanders / UNITAR.

	PARTICIPATION FEE	
	Voka-member	Non-member
< 25 emp. / non-profit	€ 1500	€ 1800
25 - 50 employees	€ 2000	€ 2400
51 - 250 employees	€ 2500	€ 3000
> 250 employees	€ 3000	€ 3600

THE MAIN THEMES

- ✓ Integrating sustainability into your strategies
- ✓ Corporate governance
- ✓ Clear communication
- ✓ Quality of the working environment
- ✓ Talent development
- ✓ Risk management
- ✓ Energy efficiency
- ✓ Quality of the (living) environment
- ✓ Sustainable resource management
- ✓ Mobility
- ✓ Social engagement

DUURZAME ONTWIKKELING ALS EEN RODE DRAAD

Opleidingen aan
de Universiteit Gent
in transitie

DEEL 1 – ACHTERGROND

**Duurzame
Ontwikkeling:
een veelomvattend
concept**

Duurzame ontwikkelings- doelstellingen

In september 2015 werden door de Verenigde Naties de Duurzame Ontwikkelingsdoelstellingen* (Sustainable Development Goals – SDGs) aangenomen: 17 doelen om een einde te maken aan armoede, onze planeet te beschermen en een menswaardige levensstandaard te verzekeren voor iedereen. Tegen 2030 moet deze Duurzame Ontwikkelingsagenda gerealiseerd zijn. Deze doelen maken meteen duidelijk dat duurzaamheid breed kan en moet uitwaaiëren, en dat heel wat uitdagingen samen moeten worden aangepakt.

Making Tomorrow

UGent omarmt de SDG's

De **Sustainable Development Goals** (SDG's) zijn door de VN opgestelde ontwikkelingsdoelstellingen voor 2030. Deze zorgen voor een sterke dynamiek waaraan de UGent zijn steentje wil bijdragen.

Zo is het ambitieuze project **MAKING TOMORROW** aan UGent opgestart. Een project waarbij studenten, samen met geëngageerd personeel, zich binnen de stad- en universiteitsmuren kunnen inzetten voor één van de duurzame doelstellingen. Samen zorgen we voor verandering!

Doe Mee, maak de UGent future-proof

Wij nodigen je graag uit op de **KICK OFF AVOND!** Dit op **8 november van 17u tot 21u op campus Coupure** (Coupure Links 653, Gent).

Het wordt een avond waarbij studenten & personeelsleden bijleren over de SDG's én vervolgens samen ideeën uitdenken en uitwerken.

Onze Keynote speaker (nog even geduld...) schetst eerst een motiverend algemeen beeld van de SDG's. Daarbij kan je in alle rust lekker smullen van een heerlijk duurzaam buffet.

Daarna vliegen we er zelf in! Specifieke workshops laten we volgen door brainstorm, zodat je samen met vele andere de uitdagingen vorm kan geven. Heel divers én voor ieder wat wils.

HEALTH IN THE SDG ERA

How students can make a sustainable difference

by [Eva Geluk](#) on Jun 29, 2017 in [Corporate Social Responsibility](#)

Tweet... [Share](#) 0

SDGs student.jpg

This year we launched a Sustainable Development Goals (SDGs) Student Ambassadors [Campaign](#), empowering our Full-time Master students with knowledge and inspiration which they could translate into actions to positively impact their faculty, fellow students and wider society. We are proud to announce that they succeeded! 54 students embarked upon a variety of campaigns, entirely voluntarily and in addition to an already heavy study schedule. All of them received extra training by CIFAL Flanders to increase their understanding of the SDGs.

One group organized SDG workshops in conjunction with BASF, Port of Antwerp, Solvay and ING Belgium during our SDG Exchange Day in March. They worked with the companies to prepare an interactive workshop for their fellow students on the SDG efforts each company is making. They thereby contributed to greater overall knowledge of how companies integrate the SDGs into their business operations.

SDGs scholen.jpg

Another group decided they wanted to train young adults on the SDGs and organized 5 SDG workshops

Doelstelling van de oefening:

**“Stel een SDG Beleidsaanbeveling op:
gebruik de 17 SDG’s als kritisch instrument om een
nieuw project/initiatief te verduurzamen
(toekomst bestendig te maken),
zowel op het niveau van thema’s
en van concrete (deel-)acties”**

Deze oefening is opgebouwd uit twee delen die chronologisch op elkaar volgen:

- Eerste deel: **THEMATISCHE BENADERING** op basis van 5P's en de 17 SDG's
- Tweede deel: **ACTIEGERICHTE BENADERING** op basis van gekozen uitdagingen en subdoelstellingen

Welcome to the SDG Online Library!

As governments, civil society, businesses and researchers are engaging in understanding and achieving the 2030 Agenda for Sustainable Development, and its 17 Sustainable Development Goals, the SDG Fund is proud to launch this library to fill an important gap: creating an online platform for publications with accessible content related to the SDGs.
